

Abdirahman Nur

I am a graduate of the University of Kuala Lumpur with both a bachelor's and a master's degree in Computer Engineering. I am a reliable and hardworking professional with experience in IT management and software development. . Comfortable working independently or as part of a team, with full-time availability on weekdays, weekends, and holidays.

EXPERIENCE

The following experience was completed through internships and collaborative projects during my Bachelor's and Master's studies at the University of Kuala Lumpur. All projects were carried out under the guidance and supervision of professors and senior technical staff.

Terra Logistics, Minneapolis, MN - *IT Manager*

Mar 2022

- Proficiently resolve timestamp issues, ensuring accurate driver scheduling and work hour recording. Troubleshoot software-related problems for drivers using the trucking app, offering timely technical support.
- Assist drivers in downloading, installing, and configuring the Amazon Relay app for seamless usage.
- Address diverse IT concerns within trucking logistics, providing solutions for hardware, software, and connectivity issues.

DealDept Mobile App, Kuala Lumpur, Malaysia-- *Software Developer*

Jan 2022 - March 2022

Built a mobile app called dealdebt Developed the DealDebt mobile application, providing users with a comprehensive platform to efficiently manage and organize their debts. Enabled users to seamlessly save, edit, and track their outstanding debts, facilitating easy deletion upon payment and effective monitoring of debt ownership status. Built a website for a travel company

- Orchestrated database connections and optimizations for the DealDebt application, ensuring data integrity and streamlined performance.
- Conducted rigorous user experience testing, enhancing the app's usability and functionality for a seamless end-user interaction.

Sewabas, Kuala Lumpur, Malaysia- *Front End Developer*

Aug 2020 - June 2021

I oversee and manage the website's development and maintenance, ensuring its functionality and user experience align with our objectives. I handle aspects of web design, content updates, and optimization to enhance the site's performance and engagement. Additionally, I strategize and implement solutions to improve the website's effectiveness in meeting our organizational goals.

- Developed and launched two distinct websites, ensuring their seamless functionality and user experience.
- Established robust database connections, optimizing data accessibility and management for enhanced performance. Implemented secure and efficient payment gateways, enabling seamless transactions for the websites' users.

SKILLS

- **Microsoft Office:** word, excel, powerpoint and excess

- **Programming :** Java script , HTML, CSS, SAS PHP

- **Libraries and Frameworks:** React, next.js Gatsby, Tailwind, Android Studio

- **Tools and Platform:** Git, Github,Netlify,vercel,wordpress,webpack,firebase,superbase figma

AWARDS

Bronze Award For Smart Suitcase Slice 18 Nov 2018:

Led a collaborative project to engineer an autonomous smart suitcase utilizing Arduino Uno microcontrollers, integrated sensors, and motor systems. Implemented a sophisticated mobile application that utilized QR code scanning technology for seamless tracking and control. The suitcase autonomously followed its owner by synchronizing with the mobile app, showcasing expertise in embedded systems, sensor integration, and mobile technology interfacing.

EDUCATION

University of Kuala Lumpur:

2016-2022

- *a Bachelor of Engineering Technology (Honors) in computer systems.*

-*Masters degree in Computer Science.*

LANGUAGES

- *English Fluent*
- *Arabic: Intermediate*
- *Somali: Native Speaker*
